Cloud Operations | Azure Administration | Endpoint & Identity Management | Basking Ridge, New Jersey 07920

PROFESSIONAL SUMMARY

Azure Administrator Associate (AZ-104) and Azure Fundamentals (AZ-900) certified IT professional with hands-on experience supporting Windows endpoints, cloud identity, and device management in production environments. Skilled in Microsoft Intune and Microsoft 365 administration, Active Directory and Entra ID identity and access management, and infrastructure monitoring with Azure Monitor, Log Analytics, and KQL. Hands-on experience deploying and managing Infrastructure-as-Code with Terraform and GitHub Actions CI/CD pipelines. Additional experience includes incident tracking in Jira and automation with PowerShell, Python, and Microsoft Graph SDK.

CORE SKILLS

Cloud & Identity: Microsoft Azure (AZ-104/AZ-900), Entra ID, Active Directory, Conditional Access, MFA, RBAC, Microsoft Intune, Microsoft 365
Infrastructure & Monitoring: Windows Server, Linux (Ubuntu), TCP/IP, DNS, DHCP, VLANs, Azure Monitor, Log Analytics, KQL
Automation & IaC: Terraform, GitHub Actions CI/CD, PowerShell, Python, Bash, Microsoft Graph SDK, Git
ITSM & Documentation: Jira Service Management, incident tracking, root-cause analysis, runbooks, deployment guides

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104) — Issued Jan 2026
- Microsoft Certified: Azure Fundamentals (AZ-900) — Issued Sept 2025

PROFESSIONAL EXPERIENCE

Cloud Infrastructure & Identity Labs Jan 2026 – Present

- Building hands-on cloud infrastructure and identity labs; publishing documentation and automation scripts on GitHub (sean-clarke.dev).

IT Systems Administrator | Brightstar Lottery (New Jersey) Jun 2025 – Dec 2025

- Deployed and configured 50+ Windows 11 endpoints (Elo tablets, Zebra printers, Canon scanners) using standardized imaging, Intune enrollment, and validation checklists.
- Administered Microsoft Intune for 100+ endpoints: enforced compliance policies, security baselines, and domain integration.
- Managed identity and access in Active Directory and Entra ID: user provisioning, group membership, RBAC assignments, and authentication troubleshooting.
- Built an Excel-based asset tracking system with PowerShell scripting for 150+ devices, automating status reconciliation to improve inventory accuracy during site transitions.
- Tracked incidents and service requests in Jira Service Management; performed root-cause analysis for connectivity, DNS, and VLAN issues, escalated issues as needed, and authored 6+ runbooks and technical guides.

Website & Digital Tech Intern | Rutgers Cancer Institute (New Brunswick, NJ) Sep 2024 – Dec 2024

- Migrated and refactored 50+ SharePoint intranet pages using HTML/CSS, improving navigation and content accessibility across departments.
- Managed digital signage deployments via Samsung MagicInfo; coordinated content updates and created visual assets in Canva.

PROJECTS

Azure Infrastructure & Observability Lab | Terraform, Azure, GitHub Actions, Log Analytics, KQL — GitHub

- Deployed Terraform-managed Azure environment: virtual network, subnets, NSGs, public IP, Ubuntu VM with nginx, and auto-shutdown scheduling.
- Configured Azure Monitor Agent, Data Collection Rules, and Log Analytics workspace with Syslog and performance counter ingestion.
- Built metric alert rules (CPU > 80%, VM availability) with Action Group email notifications; wrote KQL queries for SSH and resource trends.
- Implemented GitHub Actions CI/CD with OIDC federation (no stored secrets), Terraform remote state in Azure Storage, and PR-based plan/apply workflow.
- Applied Azure Advisor recommendations and auto-shutdown scheduling to optimize resource costs during non-production hours.

Modern Workplace & Identity Ops Lab | M365 Business Premium — GitHub

- Built end-to-end identity and endpoint ops lab: Entra ID security groups/RBAC, Intune compliance and configuration profiles, Win32 app deployment.
- Implemented Conditional Access policies (MFA enforcement, legacy auth block, device compliance gating) with documented break-glass controls.
- Automated user onboarding, license auditing, and compliance reporting using Microsoft Graph PowerShell SDK.
- Produced runbooks and ticket-style investigation write-ups with screenshots and step-by-step remediation procedures.

EDUCATION

Rutgers University — B.A. Information Technology
Raritan Valley Community College — A.S. Information Technology
